

**CHERYL DE WIT**  
**BONNIEVALE, Western**  
**Cape**

After eight chemotherapy treatments and a bi-lateral proactive mastectomy, Cheryl de Wit celebrates three years as a breast cancer survivor.

Her family, especially her beautiful daughter, has motivated her every day. They never gave up HOPE throughout her journey with cancer. Cheryl realised that she was blessed and was given a second chance at life. Her daughter kept reminding her that it is okay to have an emotional day – but that she had to carry on!

And now as Survivor Chairperson for her local CANSA Relay For Life, she walks the track with fellow survivors celebrating, encouraging and spreading the purple wave of hope!
